

STRATEGIC LOCAL CHURCH PARTNERS

Overview

As you may already know, we strongly believe in the role of the local church. Although many churches around the country invest in DC Chi Alpha (which we are incredibly grateful for!), we have six **strategic local church partners**. These are long-term relationships based on trust, commitment, and a shared passion to wisely invest in students at university campuses in our nation's capital.

In summary, each of these churches:

1. Preach Jesus
2. Love college students
3. Support students being involved in campus ministry while at a local church
4. Generously invest financially in DC Chi Alpha at either AU or GU (or both!)

Although Chi Alpha is an Assemblies of God ministry (and staffed by credentialed Assemblies of God ministers / missionaries), our current partnerships span across denominational lines and represent churches of varying size and style.

Next Steps

If you're interested in pursuing a partnership with us, we'd love to connect! Here are a few things to note as you discern whether it's going to be a good fit.

Info:

- We evaluate partnerships on an annual basis, during the summer months of June and July.
- This is intended for churches that are easily accessible to our students even if they don't have a personal vehicle.
- We move forward with partnership requests only if the Senior / Lead Pastor is on board, although we understand that we might typically interface with another staff member after initial conversations.
- To request a short, two-page application, please email churches@dcchialpha.com and we'll get back to you in 3-5 business days.
